FEMA's response back to me regarding EPA's Demob listing: ***:Thanks very much Mike. We presume that most of those folks are working under EPA's own authorities and tracked in the ESF-10 IAP. Is that a correct assumption? Also, approx. how many of the total force you captured on your form are working under the MA?"***

I need your help in responding.... Do we have percentages on how many of the personnel listed are under the MA and how many are working under other authorities.....can you please get back to me on this today.

Thanks

Mike,

Using the attached template, below will be the format we are using to prepare today's required demob report for the Ops Section Chief and FCO. Your resource types (primarily Fed On-Scene Coordinators) should be pretty straightforward, however as discussed your pollution response numbers are going up so understand that 'demob' will not be your net result. If you need to clarify anything, either myself or ops planner Brian Formanek (202-664-7159, cc'd above) are POCs. This is high priority for us today per the Ops Chief. We'd like to have the inputs in by 1400 today. If slipping past that we'll need a call to discuss please. I'll be sending a similar request to USCG for their ESF-10 stuff.

Thanks!

Jim
